Objective

To work in the media industry doing what I love and do best; web & graphic design.

Technical Qualifications

- » Proficient in both Mac OS & Windows.
- » Experience with all Adobe Products.

Work Experience

CTV London

2010 - Present

Multi Media Producer/Editor

Design, produce and maintain web and print content for Bell TV and Radio stations across Southern Ontario. Produce promo videos for news and commercials for clients. Create daily on-air graphics for the news cast using Inscrber and take them live to air. Maintain social media presence for the station & all associated initiatives. Assemble and record commercial feeds using Avid. Court Room sketches. Photograph on-air talent.

A Driven Design

2008 - Present

Freelance

Design, produce & maintain websites, branding & social marketing for my clients. Consult with clients regarding social media strategies. For more info visit adrivendesign.com.

Sweet Spot Games

2008 - 2010

Graphic & Web Designer/Producer

Designed, produced & maintained websites, branding, social marketing & promos for the company & it's clients. Designed User Interfaces for 3D first person shooter and 2D flash games.

EMI Music

2008

New Media Designer

Designed graphics & web pages for various artists & events. Created contests & web banners. Updated website concert listings.
